

Sandy Zartaloudi was born and raised in Greece until she left abroad for studies.

Her passion in making everything around her beautiful, led her to accomplish her studies in

biomedical sciences graduating first in her class. In order to envision her will and to successfully reach it, she obtained an MBA abroad, which made her capable of her entrepreneurial skills.

She thrived between Switzerland and Middle East, advertising the Greek spirit talent and entrepreneurship all over the world.

Living in the rural countryside of Switzerland and spending a simple life, was introduced to the Swiss multinational company Zartaux at a key point whereas she became the Brand's Ambassador.

Zartaux decided to be represented by such a woman, as an expert in beauty matters, who can easily recognize the efficiency and quality of their products, which are the only ones she trusts her daily beauty routine.

Among her achievements are the introduction of many beauty treatments and protocols by giving her an innovative point of view.

Sandy Zartoudi is currently promoting Zartaux philosophy 'AGE IS JUST A NUMBER' not only in Greece, but worldwide, especially in the Middle East, where she spends most of her time due to business obligations.

She strongly believes that these past few difficult years could be the stepping-stone for more innovations in all aspects of life, hoping for a better and qualitative future.
